# Temperature Differences and Prediction Standard Errors Across Africa and the Arabian Peninsula

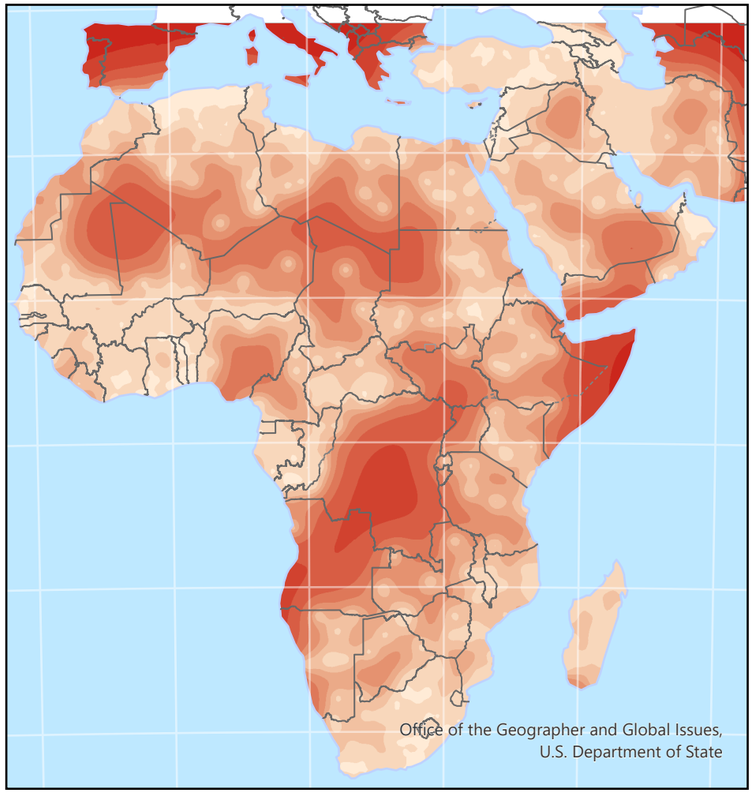

January Prediction Standard Error (°C)

Prediction Standard Error (°C)

- 0.75- 1.54
- 1.54 - 2.01
- 2.02 - 2.30
- 2.30 - 2.48
- 2.48 - 2.58
- 2.58 - 2.65
- 2.65 - 2.69
- 2.69 - 2.75
- 2.75 - 2.86
- 2.86 - 3.03

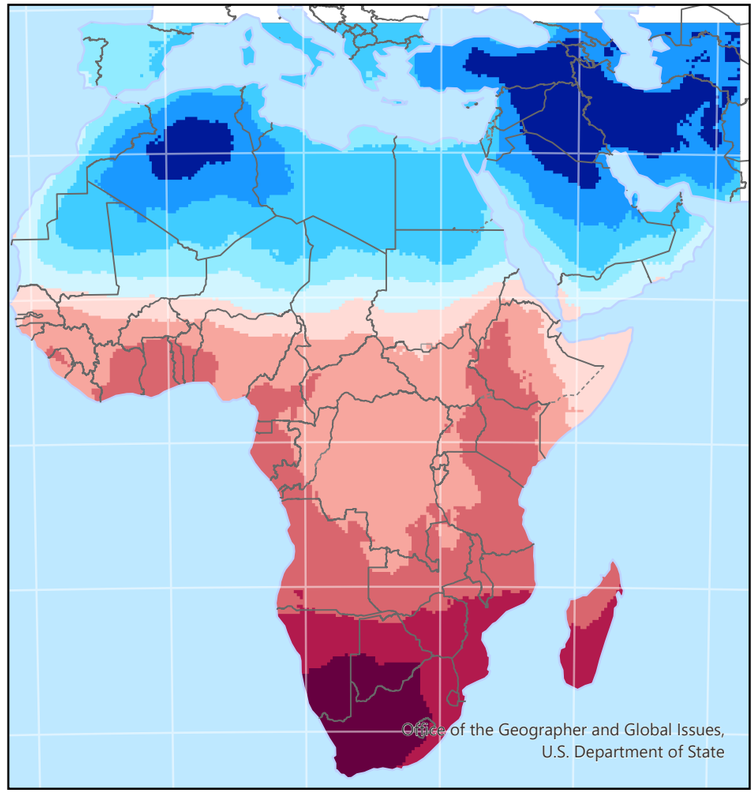

August Prediction Standard Error (°C)

Prediction Standard Error (°C)

- 0.92- 1.35
- 1.35 - 1.67
- 1.67 - 1.92
- 1.92 - 2.10
- 2.10 - 2.35
- 2.35 - 2.67
- 2.68 - 3.10
- 3.11 - 3.67
- 3.68- 4.43
- 4.43 - 5.42

Temperature Difference (°C)

Temperature Difference

- -13.28 - -7.67
- -7.67 - -4.21
- -4.21 - -1.39
- -1.39 - 2.077
- 2.08 - 6.37
- 6.37 - 11.00
- 11.00 - 14.96
- 14.96 - 18.92
- 18.93 - 22.89
- 22.89 - 28.83

N

0 875 1,750 3,500 Kilometers

These maps show the prediction standard errors for January and August temperatures and the temperature differences between the two months across Africa and the Arabian Peninsula. The standard error maps illustrate spatial variations in prediction uncertainty, while the temperature difference map highlights seasonal temperature variations.

Coordinate system: Africa Equidistant Conic.

Data source: Esri Learn ArcGIS — Interpolate temperatures using the Geostatistical Wizard (tutorial dataset).
